THE widow of the late President Thiers, of France, died last Sunday.

FLOODING in the British navy has been abolished, a cable dispatch to-day announcing that the admiralty had decided on its termination.

THE failure among coffee traders in this country has not affected business in the same line in London. We are informed by to-day's cablegrams.

A cable dispatch from Paris to-day says it is reported that R. W. Thompson, secretary of the United States navy, has been formally offered the chairmanship of the American Panama canal company. It is understood he will accept the position.

A BILL was introduced in the lower house of congress, last Monday, to fix the pay of the president of the United States at \$25,000 per annum, payable monthly, and to appropriate \$100,000 from the public funds to erect a monument to the late Gilbert Mortier, the Marquis de Lafayette, to be located on the battlefield of Brandywine.

THE future policy of the directors of the Louisville and Nashville railway is reported from good authority to be to secure connection at an early day with the railway system in Texas, even if the company has to construct an independent line west from the Mississippi river. A syndicate is in course of formation to construct the road, but if this fails the L. & N. will be likely to take up the work on its own account.

IN consequence of the adverse volume of trade in France there is a gradual diminution of the stock of gold in that country. Minister of Finance Maguin is preparing to protect the last now in the bank of France by advancing the rate of discount and putting in circulation bank notes for payments beyond 100 francs. There is an abundance of gold coins in circulation throughout France, and the prospects favor a revival of all industries in that country.

"THE Great Political Misdemeanor," is a title recently saddled upon Gen. Grant, all because his friends in both parties, but chiefly republican, are about to ask that he be appointed captain-general of the army. A party of admirers have made up a purse of some \$400,000, which is shortly to be presented to the General. It may be given him next Sunday, when he is to review, on dress parade, the Thirtieth New York Militia regiment, of which the Rev. H. W. Beecher is chaplain. The parade is expected to be an event of great public interest.

LOW TELEGRAPHIC RATES.
The Western Union Forcing the Fight With Gould's Company.

NEW YORK, December 3.—A first indication of the long-expected telegraph war between the Western Union and American Union was developed to-day in the order given to the manager of the Western Union in Scotland to cut rates from the coast regions to New York, Baltimore, Erie, Pittsburgh and other prominent places. The rate to be charged is uniform, twenty-five cents, and the reduction is from thirty to fifty per cent. The American Union in a few days will throw open for business a new through line between New York and Chicago, via Scotland. This action of the Western Union may be taken as a verification of the story prevailing in Wall street to the effect that the Western Union directors are in favor of opening the war on Gould's company themselves and forcing the fight. It is said that the chief holders of the Western Union stock, including Mr. Vanderbilt and the directors, have quietly unloaded their holding upon the street in anticipation of a war, hoping to be able to buy them back again at a much lower figure. It is announced to-day also that Gould will lay a new Atlantic cable, to be called the American Union cable; that a goodly share of the stock has already been subscribed for, and that the scheme is perfected.

A LIT for the National Board of Health.

NEW ORLEANS, December 9.—The sanitary council of the Mississippi valley, with representatives from the states of Michigan, Kentucky, Missouri, Minnesota, Iowa, Tennessee, Wisconsin, Illinois, and Louisiana, met in called session this morning at nine o'clock at the Grunewald hall. Dr. R. C. Kedzie Lansing, of Michigan, president of the council, delivered a short address, setting forth the duty of the council in promoting sanitary interests of the Mississippi valley. The executive committee, through the president, presented the following propositions for consideration and discussion:

First. What authority shall have charge of, and be held responsible for, the public health of the Mississippi valley, as far as comprised by commerce and travel?

Second. Shall the quarantine aim to keep infectious epidemic diseases entirely out of the Mississippi river or limit their spread after they have entered?

A long discussion followed, the result of which was the adoption of the following:

WHEREAS, Experience has shown that measures of quarantine under the sole direction of local state boards of health have not succeeded in protecting the valley from invasion from yellow fever; and

WHEREAS, The people habitually view with distrust all announcement of sanitary acts of local boards of health, when these acts or announcements are of a character to affect the commercial interests of the locality directly concerned; therefore, be it

Resolved, That in our opinion, the general government, alone, acting through its constituted sanitary

PUBLIC
VOL. XXXI.

agents, should have direction a control of the national maritime quarantine.

The council then adjourned to meet to-morrow morning at 9 o'clock.

RATHER SUGGESTIVE.

A Darky is Handed a Coffin at Midnight.

Just as the police court was about to adjourn this morning, his honor was approached by a darky, who looked as if he had just been waked up out of a sound slumber by a cry of fire. He handed the judge a little parcel, saying he had been made a present of it the night before. The package was opened, and proved to be a little cedar coffin about six inches long, perfectly made, highly polished, and garnished with silver-headed tacks.

"What you think of dat, boss?" inquired the darky, his wool taking another rise.

"Think it's a coffin," replied the judge.

"Jes so," said the man. "Now, s'pose a nigger was to wake you up in de middle of de night, jes as de bell was tolling twelve, and ax you to 'cept dat as a present."

"I would not feel very comfortable,"

"Jes so. Neither did I. And now I wants ter know if a man has got de right ter offer such suggestions without bein' axed. And, besides dat, a man come befo' day dis mornin' an' said hebben had sent him to let de glorious daylight through my body in five places. Is dere any law?"

"I would suggest," remarked a lawyer who stood by, "that awaiting the slow course of the law, you prepare for death."

"I've got it!" suddenly exclaimed the darky; "de man dat come last night is a undertaker, and de one dat come dis mornin' is his partner. Dey wants a job; but dey won't put me in no cedar coffin with silver nails. It'll be made of pine boards and rusty shingle nails." He was instructed to go before the grand jury, and left.

The above was taken down just as it occurred. The darky's name is Ely Craig, and he lives at the corner of Front and Jackson streets.

A Woman's Wickedness.

Some days since Mrs. Rose Elias and her son, keepers of a low dive at the foot of Beale street, were arrested for buying stolen property and sent before the criminal court for trial. The verdict of the jury was as follows, but has not yet been acted on by the court:

We, the jury, find the defendant Rose Elias guilty as charged in three indictments of receiving stolen goods, and fix her punishment at thirty days in each case, in the county workhouse, but owing to the sex and age of the defendant, we recommend her to the mercy of the court.

Blue Noses Disturbed.

ST. JOHNS, N. F., December 9.—Much dissatisfaction is felt in consequence of the British government expressing a willingness to pay the American claim for the alleged losses by the Bay Fortune outrage. The local legislature is strongly opposed to the payment.

The schooner Emma, from hence to Green Bay, with a general cargo, is reported lost with all her crew.

Indications of the Weather.
WASHINGTON, December 9.—For the Ohio valley and Tennessee, lower barometer, higher temperature, north-westerly winds shifting to southerly; clear or partly cloudy weather.

River Telegrams.

LOUISVILLE, December 9.—River falling, with 12 feet 11 inches in the

canal, and 10 feet 11 inches in the chute on the falls. Weather very cold. Arrivals and departures: Jas. W. Gaff, from Cincinnati to Memphis; Will Kyle, from Cincinnati to New Orleans; towboats Nellie Spear, Ella G., Alice Brown, Harry Brown, Smoky City, Sam Mills, and Belle McGowan, from Pittsburg.

CAIRO, December 9.—Arrived—Dexter, Evansville, 9 p.m.; Gold Dust, Vicksburg, 4; Scudder, New Orleans, 8. Departed—Dexter, Evansville.

BY CABLE.

REBELLIOUS AFRICA.
LONDON, December 9.—A dispatch from Constantinople says Goshen has departed for London.

A dispatch from Durban says the week of the rebellion on this side has been broken, and the Rondonde have been entirely routed. The president of the Orange free state believes that the rebellion will be completely subjugated in six months.

TIGHT MONEY.
The Bank of England raised to-day the discount rate from 2 1/2 to 3 per cent. Bullion in the Bank of England decreased 929,000 pounds during the past week, the proportion of reserve to liability is 431 per cent.

FRENCH POLITICS.
PARIS, December 9.—The senatorial committee on the magistracy bill has elected Jules Simon chairman. There is a possibility of a compromise in regard to the bill, which may induce the senate to pass it.

PARIS, Dec. 9.—It is stated that R. W. Thompson, secretary of the United States navy, has been formally offered the chairmanship of the American Panama canal company. It is understood that he will accept the position whenever it is regularly tendered.

[NOT.—Secretary Thompson says he has no telegram about accepting, such as that referred to. He also says that the position has not been tendered him by any one having authority to tender it.]

ELECTION IN IRELAND.
DUBLIN, December 9.—The hard leave is conducting the campaign in the north of Ireland with considerable skill, modifying its programme and proceedings to avoid offending the prejudices of the people of Ulster. In that province there is quite a different tone in their speeches, from that prevailing in other parts of the country, with the view of conciliating the Presbyterians, Liberals and Orangemen. The system of "boycotting" has been applied to six detachments of the constabulary, in different parts of Ireland.

THE IRISH UNPLEASANTNESS.
A Dublin correspondent commenting on Forester's memorandum says the truth is that the magistrates, agents and landlords generally are panje stricken, and do not venture to enforce the law of prosecution brought by the attorney-general at Ballinacree and another in Sligo have broken down, which has had a discouraging effect. There is also some difficulty about treating the land league meetings as unlawful assemblies. Magistrates do not feel boycotted in regarding the threat to Boycott as coming within the act, as it does not imply violence.

SHOT GUNS IN IRELAND.
DUBLIN, December 9.—The man who shot and killed the bailiff attempting to execute a decree against him, near Cookstown, County Tyrone, has been arrested. His name is Graham.

It is said the law officers are considering Parnell's recent speech at Waterford, and it is not improbable that he may be indicted on the distinct and separate charge in connection with that speech.

PERSONAL AND GENERAL.

Garibaldi's body, below the waist, is almost insensible.

There are 600,000 fewer acres under wheat in England than 1874.

A new town in the island of Sicily has been named Patti, after the prima donna.

Mrs. Garfield refuses to have her photograph sold or her portrait engraved.

A Baptist minister in LaCrosse Wis., recently left a Christian pulpit because a Universalist pastor was seated there. His defense was: "I don't consider a Universalist a Christian."

John C. New may suffer embarrassment in his senatorial contest in Indiana from a suit brought by his brother to recover \$12,000 in trust funds, alleged to have been misappropriated.

The registration of women qualified to vote for a school committee at the Boston municipal election shows that interest in the suffrage question is declining. The number this year is 772, a falling off of 217 from the registry of 1879.

Much unconscious humor is to be found in the menace lately sent to Lord Morris Fitzgerald by his Irish tenants, to the effect that, though he would certainly be shortly shot, nothing would be done to frighten or annoy Lady Adelaide, his wife.

A. C. Williams, formerly postmaster at Darlington, Indian Territory, has been tried at Fort Smith for robbing the mail. Having pleaded guilty to twelve counts of the indictment against him and restored \$500 taken

from registered letters, he was fined \$20 in each case.

A curious new club is about to be established in Albert terrace, Knightsbridge, London. It is to be founded by bachelors, who are to be allowed to invite ladies to dinner. When a member marries he is to be permitted to retain his membership on payment of a fine of twenty-five guineas.

The people of Turin are very fond of the queen of Italy. She has no guard of soldiers when she arrives in that city. Her entourage is everywhere welcomed with cheers from an admiring populace in Italy. The Magenta has become the national flower. The king of Italy is grave, thin and haggard.

Pope Leo XIII. has entirely recovered from the indisposition engendered by his constant confinement in the Vatican during last summer. Before he was elected pope it was his wont to perambulate the beautiful mountains around Perugia every summer and keep constantly in the fresh air.

Land and Liberty, the Nihilist organ, continues to be circulated in Russia. The editors of the Golos and two numbers, delivered by hand, and stamped with the cheerful seal of the revolutionary committee, consisting of a dagger, hatchet and revolver crossed.

Ex-Senator Hitchcock of Nebraska, who is urged by many republicans west of the Missouri for a position in the Garfield cabinet—that of secretary of the interior being mainly mentioned—has forty-nine years old. Born in New York state he became a classmate of General Garfield at Williams college.

A large number of foreign tourists have been attracted to Naples to witness the eruption of Vesuvius, which is a very fair one, inconsiderable materials being launched to quite a height from the top of the crater. The rail-roads, which were closed on the 21st of December, 1886, returned to normal on the 22nd of December, 1886, and the "Came to hand" 1st day of December, 1886, and executed on the 21st of December, 1886, at 10 o'clock a.m., and after different times, three Adams men, if clearly according to directions.

And on the 21st of December, 1886, at 10 o'clock a.m., and after different times, three Adams men, if clearly according to directions.

Before J. M. Coleman, Justice of the Peace for Shelby county, Tenn.—A. Quigley vs. J. M. Coleman.

In this cause a summons having been issued on the 1st day of December, 1886, for the sum of \$100, which summons, returned to the 21st day of December, 1886, returned to the 21st day of December, 1886, and the "Came to hand" 1st day of December, 1886, and executed on the 21st of December, 1886, at 10 o'clock a.m., and after different times, three Adams men, if clearly according to directions.

And on the 21st of December, 1886, at 10 o'clock a.m., and after different times, three Adams men, if clearly according to directions.

And on the 21st of December, 1886, at 10 o'clock a.m., and after different times, three Adams men, if clearly according to directions.

And on the 21st of December, 1886, at 10 o'clock a.m., and after different times, three Adams men, if clearly according to directions.

And on the 21st of December, 1886, at 10 o'clock a.m., and after different times, three Adams men, if clearly according to directions.

And on the 21st of December, 1886, at 10 o'clock a.m., and after different times, three Adams men, if clearly according to directions.

And on the 21st of December, 1886, at 10 o'clock a.m., and after different times, three Adams men, if clearly according to directions.

And on the 21st of December, 1886, at 10 o'clock a.m., and after different times, three Adams men, if clearly according to directions.

And on the 21st of December, 1886, at 10 o'clock a.m., and after different times, three Adams men, if clearly according to directions.

And on the 21st of December, 1886, at 10 o'clock a.m., and after different times, three Adams men, if clearly according to directions.

And on the 21st of December, 1886, at 10 o'clock a.m., and after different times, three Adams men, if clearly according to directions.

And on the 21st of December, 1886, at 10 o'clock a.m., and after different times, three Adams men, if clearly according to directions.

GOOD NEWS
IN SIX HOURS!

A new discovery in the vegetable line, a medicine that cannot be found in any drug store in the United States, is now being introduced into the market, until the druggists call for it, and I will advise their names and places of business in the same column with my advertisement.

No druggist has the genuine medicine unless you see his name and place of business in my advertisement.

This medicine is produced from a vegetable in the island of Portugal, called *Medina de S. Maria*, an almost miraculous herb, for the cure of all Chronic Diseases, etc., viz:

Female Weakness, Dyspepsia in its worst form, Sore Eyes, Scrofula, Syphilis, Chills and Fever, Gravel, Blisters, Derangement of the Bowels and all diseases arising from the impurity of the blood.

All persons afflicted with any of these diseases are referred to the above, and if after three or four hours after taking the medicine, you do not find it improving your health, I will refund double the amount you have paid for a bottle of the medicine, and your account also will be refunded to refund the money, provided you have it pronounced by a physician that you did not receive any benefit by it. And I will also say this much, that I do not know of any other medicine that has been tested and pronounced infallible. Do not be discouraged, but come and see me. To all physicians who have cases of these diseases, for their care I should be pleased if they would give it a trial, and I will guarantee a cure, if taken according to directions.

Female Weakness, Dyspepsia in its worst form, Sore Eyes, Scrofula, Syphilis, Chills and Fever, Gravel, Blisters, Derangement of the Bowels and all diseases arising from the impurity of the blood.

All persons afflicted with any of these diseases are referred to the above, and if after three or four hours after taking the medicine, you do not find it improving your health, I will refund double the amount you have paid for a bottle of the medicine, and your account also will be refunded to refund the money, provided you have it pronounced by a physician that you did not receive any benefit by it. And I will also say this much, that I do not know of any other medicine that has been tested and pronounced infallible. Do not be discouraged, but come and see me. To all physicians who have cases of these diseases, for their care I should be pleased if they would give it a trial, and I will guarantee a cure, if taken according to directions.
